The screenshot shows a web browser window with the JDoodle Online C# Compiler IDE. The browser's address bar displays the URL <https://www.jdoodle.com/compile-c-sharp-online/>. The JDoodle logo is in the top left, and a 'Sign In' button is in the top right. The main area is titled 'Online C# Compiler IDE' and contains a code editor with the following C# code:

```
1 using System;
2
3 class Program
4 {
5     static void Main() {
6         //declaración
7         int numero = 50;
8         while (numero<101)
9         {
10            Console.WriteLine("numero: " + numero);
11            numero++;
12        }
13    }
14 }
15
16
17 }
```

Below the code editor, there is a section for 'Execute Mode, Version, Inputs & Arguments'. It includes a dropdown menu set to 'mono-6.12.0', a checkbox for 'Interactive' which is currently unchecked, and a text input field for 'CommandLine Arguments'. An 'Execute' button is located below these options.

The 'Result' section shows the output of the program: 'compiled and executed in 0.898 sec(s)' followed by a black box containing the text:

```
numero: 50
numero: 51
numero: 52
numero: 53
```

The Windows taskbar is visible at the bottom of the screen, showing the search bar and various application icons. The system clock in the bottom right corner indicates the time is 11:56 on 27/09/2022.
